PROFILE INFO

I'm a passionate Frontend Developer who enjoys building modern and responsive web applications using **React JS**, **JavaScript**, and **Tailwind CSS**. I have hands-on experience working with authentication systems, API integration, and state management in real-world projects. I care about writing clean, efficient code and creating smooth user experiences across devices. As a self-driven learner, I'm always exploring new tools and improving my skills to grow as a developer.

SKILLS

FRONTEND

1. React.js
2. JavaScript (ES6+)
3. HTML5
4. CSS3
5. Tailwind CSS
6. React Hooks
7. Redux Toolkit
8. Axios
9. Tanstack Query

BACKEND

1. Node.js
2. Express
3. MongoDB
4. MySQL

TOOLS & TECHNOLOGIES

1. Git
2. Github
3. Postman
7. npm
8. Vite
9. Linux

OTHERS

1. Responsive Web Design
2. REST API Integration
3. Cross Browser Compatibility

EXPERIENCE

FRONTEND DEVELOPER | SELF-EMPLOYED

2023 - Present

- Built responsive web applications using React.js, JavaScript, HTML, and Tailwind CSS.
- Developed reusable UI components and optimized performance for better user experience.
- Integrated REST APIs using Axios and implemented authentication flows.
- Ensured clean code structure and cross-browser responsive design.

BACKEND DEVELOPER | (PERSONAL PROJECTS)

2024 - Present

- Developed RESTful APIs using Node.js and Express.js.
- Designed databases with MongoDB, Mongoose, and MySQL.
- Implemented secure authentication using JWT, bcrypt, and OAuth 2.0.
- Built scalable backend structures following MVC architecture.
